List Of Courses

Area	Course	Code
Foundational Physics	Mechanics and Waves	PHY111
	Electricity, Magnetism & Optics	PHY121
	Quantum Physics	PHY211
Foundational Mathematics	Calculus	MTH111
	Linear Algebra and Applications	MTH121
	Probability and Statistics	MTH211
	Mathematical Methods in Physics I	PHY221
Quantum Mechanics	Quantum Mechanics I	PHY313
	Quantum Mechanics II	PHY323
Electromagnetism	Electrodynamics I	PHY312
	Electrodynamics II	PHY324
Classical Mechanics	Classical Mechanics I	PHY222
	Classical Mechanics II	PHY311
Statistical Physics	Statistical Mechanics I	PHY316
Atomic & Molecular Physics	Atomic & Molecular Physics	PHY411
Nuclear & Particle Physics	Nuclea & Particle Physics	PHY421
Optics / Photonics	Optics	PHY321
	Nonlinear Optics & Photonics	PHY414
Condensed Matter Physics	Condensed Matter Physics I	PHY322
Computational Physics	Simulation & Modelling	PHY428
Quantum / Molecular	Quantum Chemistry I	CHM311
Experimental Methods	Experimental Methods in Physics	PHY326
Electronics (Theory)	Electronics	PHY318
Advanced Laboratories	Advanced Physics Lab II (Electronics)	PHY335

	Advanced Physics Lab III (Optics)	PHY320
	Advanced Physics Lab IV (Condensed Matter)	PHY410
	Advanced Physics Lab V (Nuclear & Astro Physics)	PHY420
Computer Science	Introduction to Computer Programming	CSA211
	Machine Learning	PHY419
Material Science	Material Science	PHY427
Inter Disciplinary Course	Thermodynamics	IDC211
	Mathematical Methods	IDC111
Scientific Writing	Scientific Writing & Communication	HSS323

★ The list includes:

- all Physics courses completed during Semesters I--VIII
- all courses completed after specialization in Physics (Semesters V--VIII)
- additional courses relevant to Physics completed prior to specialization

★ *The above semesters correspond to the Physics specialization phase of the BS-MS programme.*

★ *Full official transcripts for Semesters I--VIII are available upon request.*
